CYBER SECURITY SUMMIT 2011

securing our digital infrastructure

Monday, October 3, 2011 ▪ University of Minnesota

Welcome to the Cyber Security Summit 2011
Securing our Digital Infrastructure

Welcome to the Cyber Security Summit 2011. Today's program is a symbol of our commitment to Cyber Security Awareness Month, nationally designated as October. In order to address the growing number of cyber security threats, a collaboration of the government, business, and non-profit sectors must be strengthened for the combined protection of all. Only through a union of these three sectors can the most innovative countermeasures be conceived.

The Technological Leadership Institute at the University of Minnesota is proud of its participation in producing the Cyber Security Summit 2011, which will serve as a forum to address critical threats to our nation's digital infrastructure. Your attendance today represents your organization's commitment to not only fully understanding the cyber security issues that exist, but also becoming part of the solution.

Through your continued participation and sponsorship, this event will elevate cyber security awareness to a more prominent local, state, and national conversation. We at the Technological Leadership Institute want to thank you for supporting the Cyber Security Summit. We hope you enjoy today's program, and we look forward to seeing you next year.

Kind regards,

Gopal Khanna – Summit Chair
Senior Fellow, Technological Leadership Institute,
University of Minnesota;
Founder, The Khanna Group, LLC

2011 SPONSORS AND PARTNERS

KEYNOTE SPONSOR

Unisys is a worldwide information technology company. We provide a portfolio of IT services, software, and technology that solves critical problems for clients. We specialize in helping clients secure their operations, increase the efficiency and utilization of their data centers, enhance support to their end users and constituents, and modernize their enterprise applications. To provide these services and solutions, we bring together offerings and capabilities in outsourcing services, systems integration and consulting services, infrastructure services, maintenance services, and high-end server technology. With approximately 23,000 employees, Unisys serves commercial organizations and government agencies throughout the world. For more information, visit *www.unisys.com*.

BREAKFAST SPONSOR

Deloitte has provided services to state and local governments in the U.S. for more than a century and we are proud to have delivered service to the state of Minnesota continuously for 25 years. Deloitte is a source of leading solutions in government reform, cyber security, risk management, and technology integration.

KEYNOTE SPONSOR

AccessData Group has pioneered digital investigations for 20+ years and is the maker of FTK, SilentRunner, and the CIRT security framework. AccessData is the first company to integrate computer forensics, network forensics, large-scale auditing, and remediation into a single platform. This security framework reduces incident response time, enables large-scale compliance auditing, facilitates continuous monitoring, and provides malicious code analysis and threat scoring. *www.accessdata.com*

MEDIA SPONSOR

The Minneapolis/St. Paul Business Journal is your source for late breaking, local business news. The Business Journal delivers exclusive news and research about your clients and competitors, vital market data, and valuable leads. Weekly in print, daily through email, and continually on the web, subscribe today at *www.mspbj.com*

PARTNER

The Technological Leadership Institute (TLI) was established as an interdisciplinary center at the University of Minnesota with a Honeywell Foundation endowment. TLI's programs are tailored to empower executives and leaders in their strategic vision to leverage technology to drive business development. TLI's mission is to develop local and global leaders for technology enterprises.

PARTNER

The Khanna Group LLC, is a management consulting firm, founded by Gopal Khanna, whose work is focused on furthering innovation at the intersection of technology, government and business. The firm provides strategic planning and enterprise operational restructuring solutions for clients through a specialized team with expertise and extensive experience in both the public and private sector.

PARTNER

The Event Group, Incorporated, based in Minneapolis, MN, a full-service event production and marketing agency focused on corporate events, global marketing, production, and strategic planning. The Event Group provides a fresh, innovative approach, blending its enthusiasm and expertise with client's objectives, resulting in high impact events and strategic ROI - executed brilliantly. UNIVERSITY OF MINNESOTA

Prove You're A Master In Your Field

THREE ACCELERATED TECHNOLOGY GRADUATE DEGREES DESIGNED TO PUT YOU IN DEMAND

1 **Master of Science in the Management of Technology (MOT)**

An executive-formatted two-year program preparing professionals working in tech-intensive environments for careers in management and leadership. Provides the tools to drive business growth and innovation.

2 **Master of Science in Infrastructure Systems Engineering (ISE)**

A 21-month accelerated program for civil engineering professionals, city managers, and planners working in public and private sectors. Blends engineering and management for a systemic understanding of the infrastructure field.

3 **Master of Science in Security Technologies (MSST)**

A 14-month accelerated program for tomorrow's analytical and risk management policymakers and innovators. Designed to meet growing demand in government and industry, the program prepares students to anticipate ever-evolving threats, manage risk and discover new methods of protection.
