ALL IN FOR NEXT
October 28–30, 2024
Minneapolis Marriott Northwest
cybersecuritysummit.org

Today's technology and the related threat landscape are changing at warp speed, making it hard to anticipate tomorrow. Quantum computing and generative AI promise both good and bad outcomes: even as lives are saved and cold cases solved, these tools generate deepfake deception and bolster bad bias.

The cybersecurity community protects people, processes, and property, and to combat outdated measures and tools, we must do it faster. We know we are strongest when we work together to leverage our collective strengths. For the 14th annual Cyber Security Summit, we come to the table ready to tackle emerging challenges and those beyond the horizon. We are going **All In For Next**.

TOP 4 CRITICAL INFRASTRUCTURES

- Communications
- Financial Services
- Healthcare and Public Health
- Information Technology

What makes this event unique?

Squarely centered geographically, and located alongside many Fortune 500 multinationals, the Summit bridges the divide between the technology sector on one coast and policymakers from the other. We host the Summit annually in Minnesota for the following reasons:

- Represents all 16 critical infrastructure sectors.
- Headquarters of 17 Fortune 500 companies.
- Location of the largest privately held company in the U.S. (Cargill).
- Major health care corridor, with UnitedHealth Group, Medtronic, Mayo Clinic and more than 700 health care/medical device companies.

- Strong retail presence with Best Buy, Target and a new Amazon technology development office.
- 7th ranked state for Science and Technology.
- Home to the University of Minnesota's Technological Leadership Institute.
- Leaders aren't just talking about cyber security, they are doing it.

1,000+ Thought leaders will come together for three days.
